

stylex

Design made to work.

CLARITY, COMFORT, AND PURPOSE.

At Stylex, every product begins with a simple idea: design should elevate how we live and work. This offering brings together seating and solutions that balance performance with a refined point of view, creating pieces that feel as intuitive as they are considered. From modular flexibility to sculptural simplicity, each design is made to adapt, endure, and integrate seamlessly into evolving spaces, resulting in a portfolio that does more than furnish environments, it helps define them.

SoftBrick

COMFORT, CONSTRUCTED.

It's plush. It's precise. It's quietly transformative. SoftBrick isn't just a lounge system—it's a deeply comfortable foundation for building space with intention. Balancing softness and structure, it delivers an inviting sit within a form designed to build, arrange, and adapt.

At its core is comfort. Exceptionally so. SoftBrick brings a distinctly residential feel into contract environments, elevating the experience of sitting from an afterthought to a priority. In a category often driven by flexibility alone, SoftBrick stands apart by focusing first on how it feels—welcoming, relaxed, and effortlessly livable.

Build freely with every detail considered

STRUCTURE MADE SOFT.

A range of seat shapes (seven units) and dual height options support configurations from intimate groupings to large-scale installations. A modular plinth base and broad powder coat palette keep every composition cohesive and clear.

Designed with Italian design duo LucidiPevere, SoftBrick reflects a balance of experimentation and refinement. Their process yields forms that feel both innovative and resolved. With SoftBrick, comfort becomes architecture, creating spaces that invite people in and adapt around them.

Vina

NATURE, SYSTEMIZED.

It's sculptural. It's modular. It's secretly genius. Vina isn't just a planter—it's a beautifully flexible system for bringing nature and order into any environment. Inspired by architectural tile, Vina's fluted aluminum frame and seamless configuration options make every arrangement feel intentional—never like visual clutter.

From standalone planters to integrated seating and display surfaces, Vina creates natural divisions that feel as effortless as they are elegant. Need a mini forest of fiddle-leaves? Go for it. Want a perch with a view? Done.

Rooted in recycled materials and designed for adaptability, Vina brings the outside in—infusing spaces with warmth, structure, and style.

Elements in balance

Vina extends beyond the planter into a flexible system of integrated surfaces and functions. Planters introduce natural softness, wood surfaces add warmth and utility, trays create moments for display and organization, and benches invite pause and connection. Together, they form a cohesive toolkit for shaping space with clarity, purpose, and ease.

RELA LOW BACK CHAIRS WITH CALA TABLE AND VINA PLANTERS
RELA HIGH BACK CHAIRS WITH FREE ADDRESS TABLE

Rela

PRECISION, AT EASE.

It's refined, responsive, and quietly comfortable. Rela is a task chair defined by clarity of form and an intuitive approach to sitting. Designed by Claudio Bellini, it balances architectural precision with human-centered ease. A confident silhouette and crisp geometry give it a sculptural presence, while a subtle softness delivers comfort rarely found in task seating. It feels as natural at home as it does at work.

At its core, an integrated flex system moves with the body, providing responsive support while preserving a clean, minimal profile. A thoughtful range of options expands its versatility, from low, mid, and high backs to multiple arm and upholstery expressions. A curated palette of finishes completes a chair that is both precise and relaxed, built to endure.

Ambi

BUILT FOR THE WAY WE WORK.

In partnership with Gensler, we designed Ambi to bring people together—on screen or in real life—with one smart, modular booth system. Inspired by ambiance, its name reflects its ability to shape both the mood and function of your space. Soft panels help quiet the noise, while built-in tech makes video calls and presentations feel effortless. Whether it's a solo booth or a relaxed team hub, Ambi turns heads—and transitional spaces—into comfortable, high-performing environments that work beautifully.

WORKSTATION

MEDIA WALL

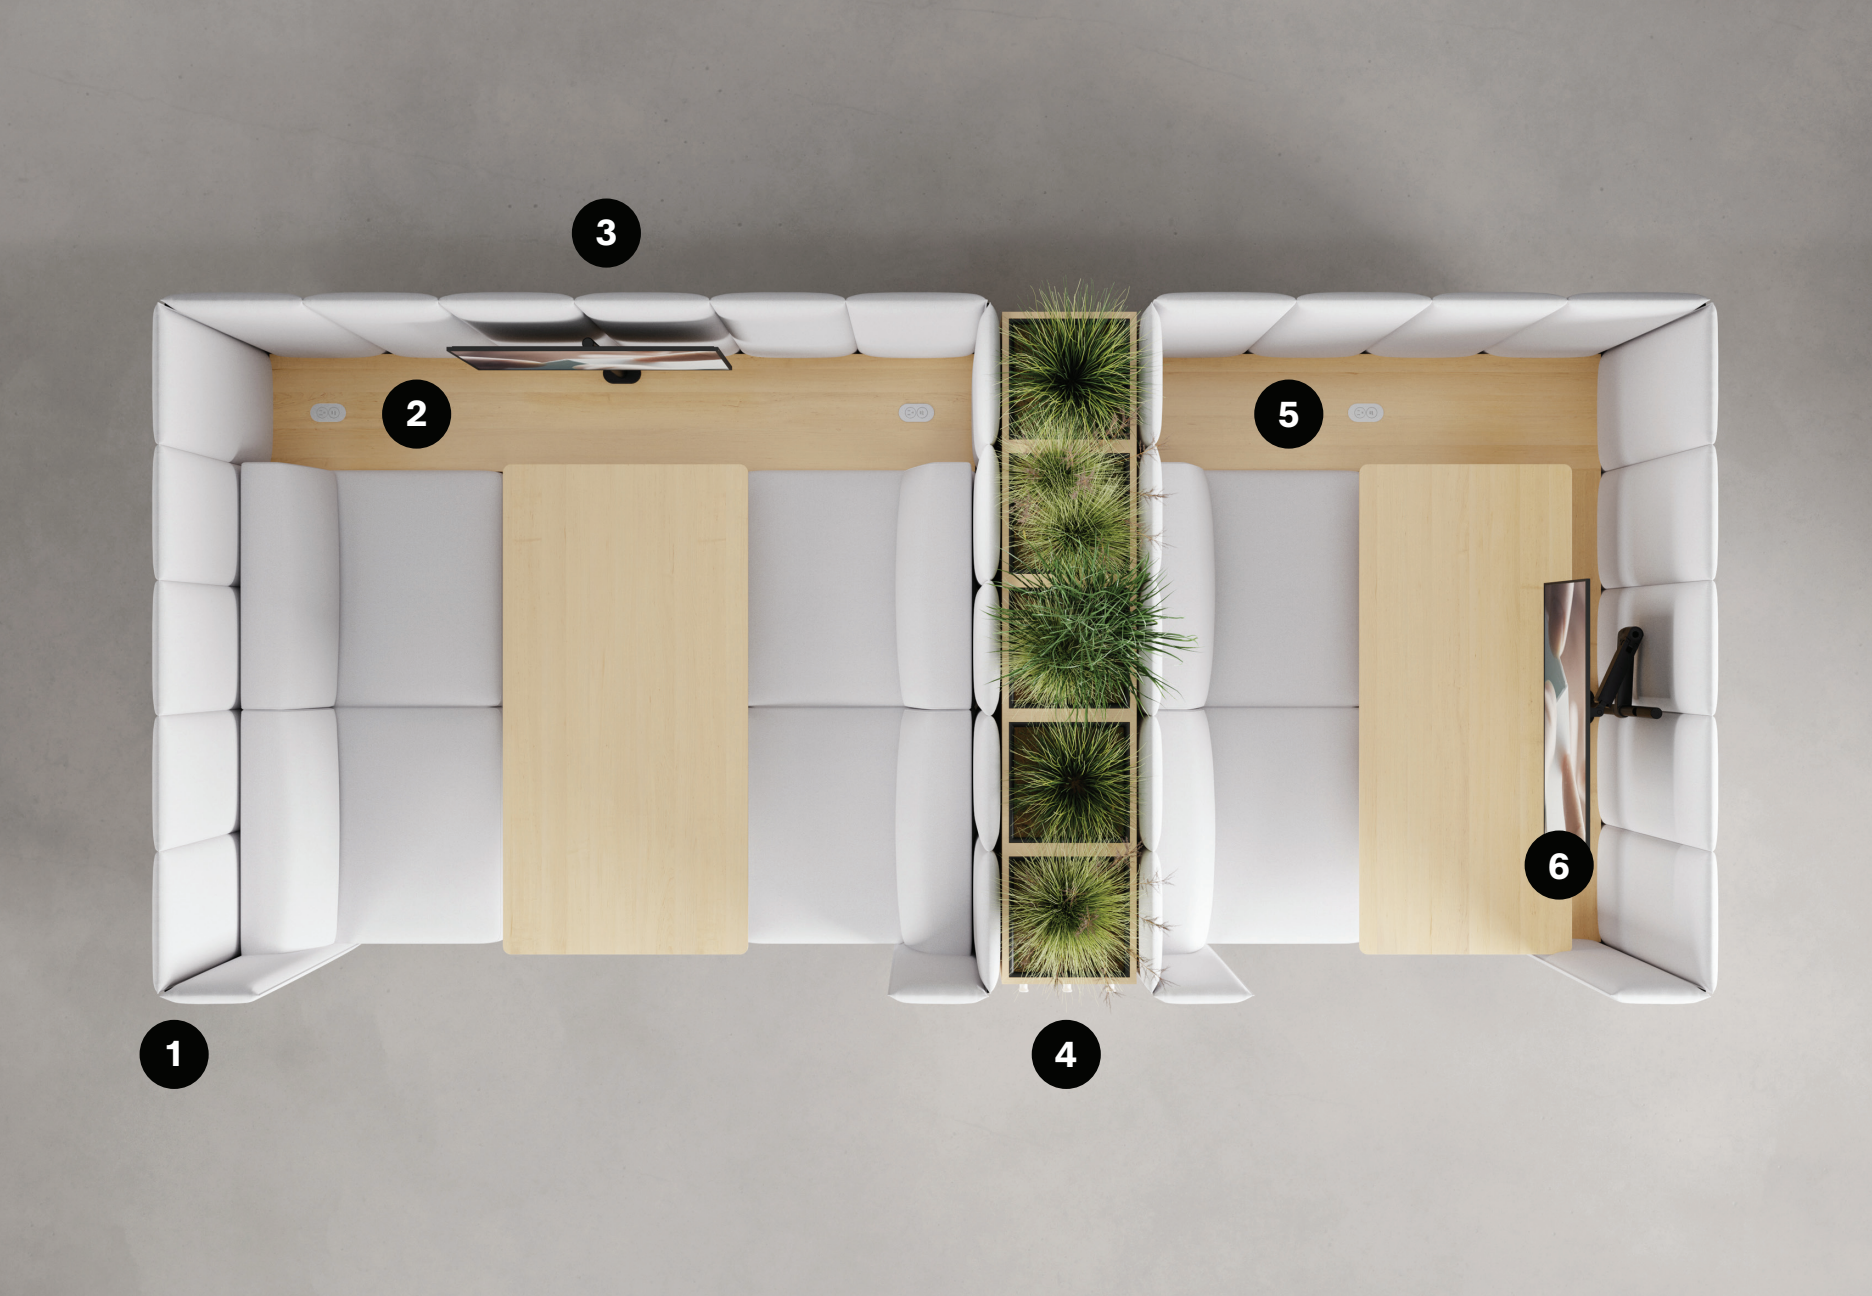

YOUR SPACE. YOUR WAY.

With six smart, ready-to-go Ambi layouts—including lounges, booths, workstations, and a media wall—planning your space just got easier. Ambi offers extensive options to make each setup your own: choose from 24 powder coat frame colors, six laminate finishes, three wood veneers, two screen heights, and dual-fabric upholstery.

Prefer to build from scratch?
Ambi's modular components let you customize your own layout—for a solution as unique as your space.

More than just a pretty space

- 1. Customize Your Quiet**
Pick your level of privacy: 54" high screens for quieter, focused work—or 30" high for a layout that stays open and connected.
- 2. Space for Stuff**
Even your bag has a seat. Built-in ledges keep it off the floor and right where you want it—because thoughtful design should think of everything.
- 3. Strong Arms for Smart Screens**
Easily connect with colleagues in person or remotely with monitor arms designed for enhanced visibility.
- 4. Bring the Outside In (Stylishly)**
A little greenery in the scenery goes a long way. Plants boost well-being, soften the space, and give you a little extra privacy, too.
- 5. You've Got the Power**
Power at your fingertips—literally. Outlets on casegood ledges and under seating make it easy to plug in and power up.
- 6. Tables that Know Better**
Cala tables are a perfect fit for Ambi—just the right height at 27.5". With a 26" depth, they work smoothly with monitors in single booth and workstation setups.

Look closer, it gets better.

POWER, PURPOSE, AND POLISHED.

Good design gets you started—the details take it to the next level. Our collection of tables and accessories is built to make your Ambi setup even better. With features like optional power and daisy-chaining for larger setups, it’s all about making things work smarter while keeping up appearances.

READY FOR ANYTHING. DESIGNED FOR EVERYTHING.

Ambi’s modular lounge pieces flex to fit your space—whether you need a relaxed spot to recharge or a focused setup for getting things done. Thoughtfully designed to blend in or stand out, Ambi adapts with ease. Enhance your layout with a media wall for collaboration, integrated tables, swivel tablet arms, or a coat and bag hook to keep things comfortable, connected, and complete.

Cala

MORE THAN MEETS THE SURFACE.

The Cala Table Collection pairs sleek, minimal design with everyday versatility. With options like coffee, side, laptop, and café tables, it fits right in—whether it's a lounge, workspace, or café. A thin-profile stem base and low-profile metal plate let it slide easily under modular seating, keeping things functional without getting in the way.

With 24 powder coat finishes to choose from and options like solid wood, veneer, laminate, or Caesarstone, you can mix and match to suit any space—style, comfort, and function all in one.

Height, perfected.

WORK IN COMFORT WITH CALA CAFÉ TABLES.

Three calibrated heights designed to pair seamlessly with Stylex lounge seating. Available in 26", 27.5", and 29" heights, Cala supports healthier, more ergonomic postures across a range of lounge environments while maintaining an ideal seat-to-tabletop relationship for comfort and ease.

Anla

SOFT CURVES, STRONG STATEMENT.

The Anla chair blends soft curves, ergonomic support, and just the right amount of flex. Whether at a dining table or in an executive office, its sculptural form delivers comfort with a modern edge. Crafted from 100% recycled polypropylene, Anla is available with standard or ruched upholstery and a variety of base styles—designed to keep you supported in style.

- Greenguard IAQ Certified
- Level® 2 Certified
- Internal back—100% recycled material
- Water-based adhesives
- Recyclable steel tube (tube bases)
- VOC-free powder coat finish

Luna

MADE TO FIT, DOWN TO THE INCH.

Specify it by the inch to fit perfectly—even in those tricky, one-of-a-kind spaces. Choose segments from 25" to 60", in continuous runs or as individual pieces. Select an elevated or plinth base, a low or high back, and finish it off with open ends or a sleek half-moon arm. Curved in all the right places—with comfort to match.

Where form meets function

PLUG IN. STRETCH OUT. POWER UP.

We've said it before, and it's worth repeating —it's not just about looking good. It has to work. Luna takes banquette seating to the next level, made to fit your space perfectly—right down to the inch. With smart add-ons like built-in power, planters, tablet arms, and trays, it brings comfort, style, and function together in one seamless setup. Because great design doesn't just sit there... it pulls its weight.

Yoom

MAKE YOURSELF COMFORTABLE.

Yoom is a lounge collection that's as easygoing as it is design-forward. With its soft curves, plush comfort, and effortless modularity, Yoom invites you to sit back, stretch out, or gather 'round—whatever the moment calls for.

Each piece is purposefully proportioned and meticulously upholstered for a sit that feels just right. And here's the best part: Yoom doesn't just fit your space, it flexes with it. Arrange it. Rearrange it. Mix and match elements to suit your mood or your floorplan. Soft. Simple. Totally customizable.
