Make Work Beautiful

DESIGN UNBOUND.

Stylex explores the organic intersection of nature and design, shaping space through material richness, modularity, and flow. With 24 curated powder coat finishes, thoughtful configurations, and refined details, Stylex offers designers the freedom to compose environments that support movement, individuality, and well-being.

Vina

NATURE, SYSTEMIZED.

It's sculptural. It's modular. It's secretly genius. Vina isn't just a planter—it's a beautifully flexible system for bringing nature and order into any environment. Inspired by architectural tile, Vina's fluted aluminum frame and seamless configuration options make every arrangement feel intentional—never like visual clutter.

From standalone planters to integrated seating and display surfaces, Vina creates natural divisions that feel as effortless as they are elegant. Need a mini forest of fiddle-leaves? Go for it. Want a perch with a view? Done.

Rooted in recycled materials and designed for adaptability, Vina brings the outside in—infusing spaces with warmth, structure, and style.

Ambi

BUILT FOR THE WAY WE WORK.

In partnership with Gensler, we designed Ambi to bring people together—on screen or in real life—with one smart, modular booth system. Inspired by ambiance, its name reflects its ability to shape both the mood and function of your space. Soft panels help quiet the noise, while built-in tech makes video calls and presentations feel effortless. Whether it's a solo booth or a relaxed team hub, Ambi turns heads—and transitional spaces—into comfortable, high-performing environments that work beautifully.

- Greenguard Gold IAQ Certified
- Level® 2 Certified
- CARB-Certified internal plywood frames
- CFC-free, molded polyurethane foam
- Water-based adhesives
- Recycled content aluminum legs
- VOC-free powder coat finish

Preconfigured layouts to get you started

YOUR SPACE. YOUR WAY.

With six smart, ready-to-go Ambi layouts—including lounges, booths, workstations, and a media wall—planning your space just got easier. Ambi offers extensive options to make each setup your own: choose from 24 powder coat frame colors, six laminate finishes, three wood veneers, two screen heights, and dual-fabric upholstery.

Prefer to build from scratch? Ambi's modular components let you customize your own layout—for a solution as unique as your space.

More than just a pretty space

- 1. Customize Your Quiet**
Pick your level of privacy: 54" screens for quieter, focused work—or 30" for a layout that stays open and connected.
- 2. Space for Stuff**
Even your bag has a seat. Built-in ledges keep it off the floor and right where you want it—because thoughtful design should think of everything.
- 3. Strong Arms for Smart Screens**
Easily connect with colleagues in person or remotely with monitor arms designed for enhanced visibility.
- 4. Bring the Outside In (Stylishly)**
A little greenery in the scenery goes a long way. Plants boost well-being, soften the space, and give you a little extra privacy, too.
- 5. You've Got the Power**
Power at your fingertips—literally. Outlets on casegood ledges and under seating make it easy to plug in and power up.
- 6. Tables that Know Better**
Cala tables are a perfect fit for Ambi—just the right height at 27.5". With a 26" depth, they work smoothly with monitors in single booth and workstation setups.

Look closer, it gets better.

POWER, PURPOSE, AND POLISHED.

Good design gets you started—the details take it to the next level. Our collection of tables and accessories is built to make your Ambi setup even better. With features like optional power and daisy-chaining for larger setups, it's all about making things work smarter while keeping up appearances.

READY FOR ANYTHING.
DESIGNED FOR EVERYTHING.

Ambi's modular lounge pieces flex to fit your space—whether you need a relaxed spot to recharge or a focused setup for getting things done. Thoughtfully designed to blend in or stand out, Ambi adapts with ease. Enhance your layout with a media wall for collaboration, integrated tables, swivel tablet arms, or a coat and bag hook to keep things comfortable, connected, and complete.

Cala

MORE THAN MEETS THE SURFACE.

The Cala Table Collection pairs sleek, minimal design with everyday versatility. With options like coffee, side, laptop, and café tables, it fits right in—whether it's a lounge, workspace, or café. A thin-profile stem base and low-profile metal plate let it slide easily under modular seating, keeping things functional without getting in the way.

The perfect power couple

AMBI BOOTH & CALA TABLE.

Cala tables were made to team up with Ambi. At 27.5" high, they're the ideal height for comfortable booth seating. With 24 powder coat finishes to choose from and options like solid wood, veneer, laminate, or Caesarstone, you can mix and match to suit any space —style, comfort, and function all in one.

Anla

SOFT CURVES, STRONG STATEMENT.

The Anla chair blends soft curves, ergonomic support, and just the right amount of flex. Whether at a dining table or in an executive office, its sculptural form delivers comfort with a modern edge. Crafted from 100% recycled polypropylene, Anla is available with standard or ruched upholstery and a variety of base styles—designed to keep you supported in style.

- Recyclable steel tube (tube bases)
- VOC-free powder coat finish

Luna

MADE TO FIT, DOWN TO THE INCH.

Specify it by the inch to fit perfectly—even in those tricky, one-of-a-kind spaces. Choose segments from 25" to 60", in continuous runs or as individual pieces. Select an elevated or plinth base, a low or high back, and finish it off with open ends or a sleek half-moon arm. Curved in all the right places—with comfort to match.

Where form meets function

PLUG IN. STRETCH OUT. POWER UP.

We've said it before, and it's worth repeating —it's not just about looking good. It has to work. Luna takes banquette seating to the next level, made to fit your space perfectly—right down to the inch. With smart add-ons like built-in power, planters, tablet arms, and trays, it brings comfort, style, and function together in one seamless setup. Because great design doesn't just sit there... it pulls its weight.

Yoom

MAKE YOURSELF COMFORTABLE.

Meet Yoom—a lounge collection that’s as easygoing as it is design-forward. With its soft curves, plush comfort, and effortless modularity, Yoom invites you to sit back, stretch out, or gather ‘round—whatever the moment calls for.

Each piece is purposefully proportioned and meticulously upholstered for a sit that feels just right. And here’s the best part: Yoom doesn’t just fit your space, it flexes with it. Arrange it. Rearrange it. Mix and match elements to suit your mood or your floorplan. Soft. Simple. Totally customizable.

Carry On

YOU'LL WANT TO TAKE IT EVERYWHERE.

It's so—dare we say—fun. But also, seriously useful. Carry On, designed by Mattias Stenberg for Offecct, is that clever little piece you didn't know you needed. Extra seat? Check. Side table? Yes. Bold accent? Absolutely. It goes wherever you need it, thanks to a sleek leather handle.

Wrapped in Kvadrat's Vidar textile by Raf Simons and available in six curated color combos by Carole Baijings, it's soft, chic, and designed to be noticed. Plus, it's made responsibly with sustainability in mind—because looking good and doing good should go hand in hand.
